

Same great care. More availability.

There are times when you need medical attention sooner than later. Because of that fact, The City of Billings is pleased to announce that we have expanded our partnership with St. Vincent Healthcare to provide employees and their families with access to same day clinic care.

Effective 11/1/2015, City of Billing's employees and their covered dependents will have access to same day clinic treatment.

Through this arrangement, you will have access to more convenient care. In addition, because of preferred pricing that has been negotiated, these services will result in savings for you and the City's Plan.
