

### ***Advancing Care Together as We Enter 2026***

As we celebrate the holiday season and prepare to welcome the new year, I want to take a moment to extend my sincere gratitude to our providers, partners, and stakeholders across Montana and Wyoming. The close of the year offers an opportunity to reflect on how far we've come—and to look ahead with optimism as we move into 2026.

Healthcare continues to evolve at a rapid pace, shaped by rising costs, workforce challenges, and an increased focus on value, quality, and accountability. In this environment, no single organization can succeed alone.

Our goal is to bring physicians, hospitals, and partners together through a unified network—one that amplifies provider voices, reduces complexity, and creates sustainable pathways to high-quality, patient-centered care.

Our strength lies in collaboration. Through strong governance, clinically integrated partnerships, and trusted payer relationships, RMHN supports providers with the tools, infrastructure, and data needed to succeed in both traditional and value-based care models. From credentialing and contracting to revenue cycle performance and population health strategies, we remain focused on reducing administrative burden so clinicians can focus on what matters most — caring for patients.

Guided by our core values of Integrity, Excellence, Unity, Accountability, and Adaptability, we are building a network that is resilient, transparent, and future-focused. We measure success not only by financial performance, but by improved access to care, stronger provider engagement, and better health outcomes—particularly in the rural and frontier communities we proudly serve.

As we enter 2026, RMHN remains committed to responsible growth, strategic partnerships, and continued innovation that aligns incentives, rewards quality, and strengthens our network for the long term. Together, we are shaping a healthcare system that works better—for patients, for providers, and for the communities that depend on us for their healthcare needs.

Thank you for your continued trust, collaboration, and shared commitment to advancing care across Montana and Wyoming.

Warm Regards,

Darik Croft, MBA  
President/CEO  
Rocky Mountain Health Network
